When choosing the **edit** option behind a name, the member's personal details will be shown; all field names are properly designated, allowing for easy and efficient adjustments where necessary. **A new field has been created to allow for the inclusion of the R.I. membership number, please add this detail from the Club listing sent to your 2009 / 2010 President.** When updates are made, do not forget to click on the **SAVE** button at the bottom of the page!  - **Print Members:** This option allows you to print out a listing of all your Club's members as currently contained in this year's directory, giving all personal details. Such a list should ideally be printed out and circulated among members at your normal weekly meetings. Every member should be asked to check his/her own information and make amendments, where appropriate, and to initial his/her entry to confirm its correctness. This will prove to be the most efficient way of gathering any update info for entering onto the database at a later date.
 - **Print Members Short:** This option prints out a short version of the Members Listing, covering only name and classification.
 - **Logout:** After you have made your update(s), this option will sign you out of the Update website **(please ensure that you complete this step).**
 - **Membership info gathering form (PDF 5k):** This is a blank form, designed to be used when collecting details from a NEW MEMBER. Print out as many forms as needed.
